Southlight, Inc. Selects Sequest's TIER to Streamline Workflow Processes and Increase Quality of Client Care

Lisle, IL (April 20, 2009) -- Sequest, a leading business solutions and software provider for the health and human services industry, announced Southlight, Inc. has purchased Sequest's TIER solution for their new electronic medical record (EMR). Southlight, Inc. is a private treatment center focused on life without addictions and they plan to automate all aspects of their operation using Sequest's TIER® Workflow System. Their vision for the implementation of the software has a focus on improved quality through accurate documentation and better utilization of resources through enhanced workflow processes.

"After reviewing several software packages our team chose TIER as the preferred solution. It matched our needs and we were very impressed with the flexibility of the product" said Tad Clodfelter, CEO. He went on to say "We also appreciated Sequest's willingness to work with us in providing a quality yet affordable solution."

Southlight plans to automate all aspects of their operation using the TIER® Platform. This platform delivers human resources, environmental management and quality management in addition to clinical service delivery.

Sequest's CEO, Bill Connors, commented, "We are privileged to add Southlight to the growing number of addiction treatment partnerships we have and look forward to learning how better to assist their delivery of services."

+++++

About Southlight, Inc.: Southlight, Inc. is a private treatment center focused on life without addictions. They are located in Raleigh, North Carolina and serve Wake and surrounding counties. Southlight, Inc. has been in business since 1970 and has developed comprehensive substance abuse programs that address the needs of youth, adults and families.
