Tully Hill Selects Sequest's TIER to Streamline Workflow Processes and Increase Quality of Client Care

Lisle, IL (April 20, 2009) -- Sequest, a leading business solutions and software provider for the health and human services industry, announced Tully Hill has purchased Sequest's TIER solution for their new electronic environment. Tully Hill a nationally recognized addiction treatment center located in Tully, NY plans to automate most aspects of their operation using Sequest's TIER[®] Workflow System. Their vision for the implementation of the software has a focus on improved quality through accurate documentation and better utilization of resources through better defined workflow processes.

Cathy Palm, Tully Hill's CEO recently announced Tully Hill's decision to implement Sequest TIER Substance Abuse Workflow System by stating "This decision came after three years of a comprehensive evaluation of alternative EMR systems led by James Haggerty and our IT Team." She went on to say "It became clear to our team that TIER provides the most comprehensive, intelligent, flexible product backed by a team of professionals who understand the specific needs of addiction treatment. We are grateful to our fellow NAATP

providers in addiction treatment that generously shared their expertise and implementation experiences to assist us in our selection process.”

“We greatly appreciate Tully Hills’ selection of Sequest and look forward to a long successful partnership. Our TIER Platform continues to grow with each NAATP member partnership. We find so many new, improved processes and designs for our software through our collaborative work -it allows us continuous improvement opportunities” commented Bill Connors, Sequest President/CEO.

+++++

About Tully Hill: Tully Hill is a nationally recognized treatment center located on a 30 acre rural campus in upstate NY.
