TIER® Workflow System Selected by Oliver-Pyatt Center

Lisle, IL (January 29, 2010) -- Sequest, a leading business solutions and software provider for the health and human services industry is pleased to announce the formation of a technology partnership with Oliver-Pyatt Center a nationally recognized treatment program located in South Miami, FL. serving persons with eating and other body image disorders. The program has outpatient, day treatment and residential options and incorporates treatment approaches that are therapeutically grounded that incorporate state of the art research, outcome data and up-to-date medical knowledge.

"The Oliver-Pyatt Center is very excited about our new partnership with Sequest Technologies for our automation needs," said Vicki Kroviak, Co-founder and General Manager. She went on to say: "The TIER® Workflow System was selected by the Oliver-Pyatt Center after the staff had evaluated multiple software products. TIER® was selected because of its close fit to our needs and we also liked TIER's flexibility and that many of the customizations can be done in house allowing us to quickly respond to our growth needs while saving us thousands of ongoing expense for custom development."

"We are very pleased that Oliver-Pyatt Center selected TIER as their automation solution." Replied Sequest's CEO, Bill Connors. "We share Oliver-Pyatt's goals for automation and look forward to a solid, long term relationship. "
