Harsha Behavioral Center Selects Sequest's TIER® Solution for Electronic Health Records

Lisle, IL (August 15, 2011) -- Sequest, a leading business solutions and software provider for the health and human services industry, announced Harsha Behavioral Center located in Terre Haute, IN, has selected Sequest to be the vendor of its behavioral health information system. Harsha Behavioral Center is a free standing 44-bed hospital and provides acute inpatient services to individuals needing intensive behavioral healthcare treatment.

Roopam Harshawat, President commented, "The reason we chose Sequest is because TIER is one of the few and largest programs that deal specifically with Acute Care Psychiatric Hospitals." she continued on by saying "The Company has credibility because of how long it has been around, and the referrals we received were very positive. We found TIER affordable and yet met our needs unlike some larger companies that would cost us a million or more to get started with their program."

Sequest's CEO, Bill Connors, responded to Harsha Behavioral Center's selection of TIER® by saying: "We are privileged to add Harsha Behavioral Center to the growing number of partnerships we have and look forward to working with the Harsha team to achieve their goals."

+++++

About Harsha Behavioral Center: Harsha Behavioral Center is a free standing 44-bed hospital established in August 2008, and is a provider of inpatient psychiatric services focusing on children (3-12) and adolescent (13-17) patients in need of 24-hour care ranging from 7-15 days. The center provides acute inpatient services to individuals needing intensive behavioral healthcare treatment. The goal of the services provided is to evaluate and stabilize the patient such that effective treatment can continue on an outpatient basis in a less restrictive environment. Harsha Behavioral Center is independently owned and operated and is committed to providing the patients and families with compassion, care and excellence.

About Sequest: Sequest Technologies, Inc., based in Lisle, IL is a recognized leader in innovative solutions and software products for the health and human services industry. Their expertise in streamlining financial, clinical and management processes greatly improves efficiencies and ultimately enhances patient care. The benefits of Sequest span a broad sector whose clients include mental health and substance abuse clinics, psychiatric hospitals and social services organizations. With over 25 years in the industry, Sequest is highly respected by both CEOs and practitioners alike for its healthcare experience and customer-centric approach. Today, Sequest develops more than just Electronic Health Record Systems for providers. This forward-thinking company continues to create dynamic, new connections between providers and patients that are helping transform practices and the industry as a whole.
